

PLASTIC
PERFECTLY
SHAPED

MADE IN BADEN-WÜRTTEMBERG.

ARE YOU LOOKING FOR A RELIABLE SUPPLIER FOR ULTRA-PRECISE INJECTION MOULDED PARTS MADE OF PLASTIC FOR THE PACKAGING INDUSTRY?

Then let us introduce ourselves. Spritzgussa Plastics GmbH & Co. KG is located in the tranquil town of Wannweil near Stuttgart, Germany. As one of Baden-Württemberg's leading providers of high-quality thin-walled injection moulded parts, we have been offering our customers tailored solutions for their products for over 50 years.

As a privileged supplier, we produce packaging, containers, caps, cases, cans and technical parts for renowned national and international companies from the food, packaging, cosmetic and pharma industries in three shifts and on over 2,900 m².

We offer the entire spectrum of services from a single source, from the idea, to production, all the way to delivery. Measuring 12,000 m², our warehouse space keeps your products safe before they are delivered just in time. With efficient decision-making channels, we can respond to your wishes extremely quickly and flexibly.

WE ARE
SPRITZGUSSA

CREATING SOMETHING FOR THE FUTURE TOGETHER MAKES US PROUD, STRENGTHENS OUR FEELING OF TOGETHERNESS AND IMPRESSES OUR CUSTOMERS.

The secret to our dependability is on the one hand our motivated, dedicated, flexible and loyal employees. On the other hand, we have modern machinery with state-of-the-art robot and handling systems that allow us to produce flexibly, efficiently and economically in line with global standards. From the initial concept to the finished product, WE ARE SPRITZGUSSA!

QUALITY CODE OF CONDUCT

Our customers are very demanding and value security, quality, compliance, transparency and just-in-time delivery especially. With state-of-the-art production technology, certified standards according to DIN **ISO 9001** and our competent, experienced and dedicated Spritzgussa team, we develop, produce and deliver high-quality products to the utmost satisfaction of our customers. We have been a certified manufacturer of plastic packaging as per **BRC IoP** since 2012.

Our recipe for success: long-term customer loyalty. Our customers appreciate our absolute reliability and reward us with their longstanding support, as they consider us a quality-conscious, responsible and dependable partner. This is why we also abide by the **GKV code of conduct**, which ensures the observance of global demands on ethical and moral actions as well as the standards of proper conduct in the areas of competition and antitrust law (compliance). This also means promoting fair and sustainable standards dealing with suppliers and customers as well as own company personnel. We are proud of this!

TEAMWORK

CREATING QUALITY TOGETHER

“Like most of our employees, I’ve been with Spritzgussa for many years and am especially proud to work together every day to continually improve our high quality standards and our proven processes.”

Jochen Bartl, production manager

ALL ABOUT SUSTAINABILITY

Sustainability and environmental protection are important matters at SPRITZGUSSA. Modern materials should be produced sustainably and should be biodegradable or recyclable. SPRITZGUSSA sets benchmarks in the industry and is able to process new material types, such as bio-based plastics, bioplastics or recycle materials, as usual. We would be happy to help you find just the right material for your application.

The matter of sustainability is about more than just materials; it involves the entire product cycle. As a traditional medium-sized company hailing from Southwest Germany, the lasting virtues of diligence, economy and pragmatism are practically in our DNA: With our sense of responsibility, honesty and team spirit, we motivate our employees, impress our customers and create healthy economic growth.

Together with our PRS Green Label partners, we reduce CO2 emissions and packaging waste while encouraging re-use. At the same time, we take advantage of timber pallets made from sustainable PEFC or FSC-certified sources.

✓ Reduced CO₂ emissions

✓ Reduce packaging waste

✓ PEFC™ & FSC®
